If The Pantry is not open, please go to the Information desk or Room 107 for assistance.

Research shows that the number of community college students who face food insecurity is much greater than the national average. This problem of food insecurity in community college students has a detrimental effect on their GPA, maintaining energy levels, and inability to focus.

Maroto, M. (2013). Food insecurity among community college students: Prevalence and relationship to GPA. *Journal of Nutrition Education and Behavior*, 45(4 Supplement).
