Program Information

Program Outcomes: This degree option provides comprehensive foundation course work in electro-mechanical industrial engineering technologies, electronic controls, mathematics and physical sciences for continuation in a four-year technology degree program.

Transfer Opportunities: Completion of the entire program with an average grade of "C" provides for automatic continuation at Central Connecticut State University's School of Technology or Charter Oak State College, where the student can earn a bachelor of science degree in engineering technology, industrial technology, or technology education.

Employment Information: Students who complete the associate degree possess a wide variety of career options including electro-mechanical systems repair; electronics research and development; robotic and automated systems analysis; controls systems technician, and electronics systems installation, maintenance and repair.

Graduation Information: A cumulative 2.0 GPA is required to graduate. All courses for degree credit must be numbered 100 or above. Students must complete and submit a Graduation Application to the Registrar's Office in order to graduate. *Graduation Application deadlines* : December graduation - December 1st, May graduation - March 31st, August graduation - August 1st.
