

How to Log Into Campus Computers

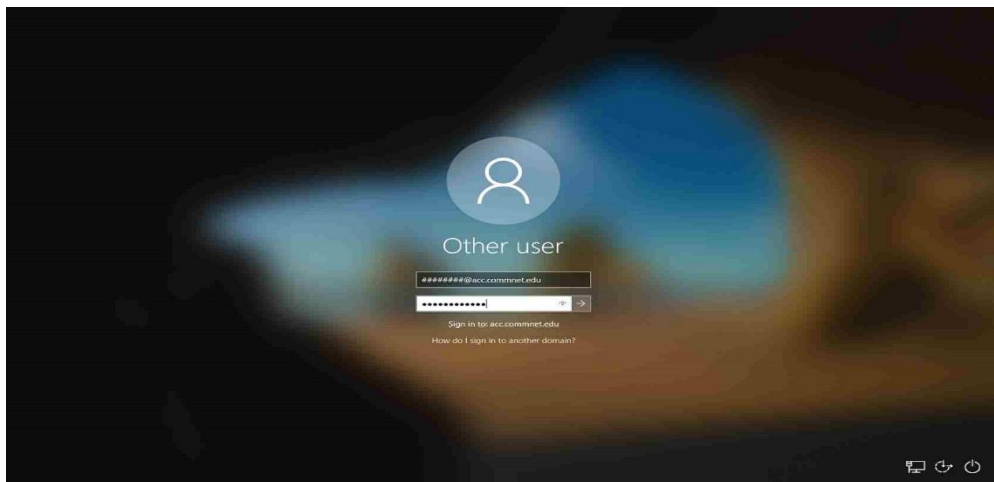

This is a quick reference guide to help you log into the computer. This will apply whether it is your first time logging in or you have done it previously.

For a quick Password Reset visit: <http://supportcenter.ct.edu/NetID/pswdmenu.asp>

1. Recurrent users, please skip to step #3.
2. New users begin here: The initial password for all new NetIDs will be based on a combination of personal information (birth date and social security number). Specifically, the following three items will make up the initial password.
 - a. **1st three characters of birth month (with first letter capitalized)**
 - b. **Use the Ampersand character - &**
 - c. **Last 4 digits of Social Security Number**

So, for a user with a birth date on 10/24/79 and social security number of 123-45-6789, then the initial password would be: **Oct&6789**

NOTE: You will be forced to change your password the first time you log in.

3. Recurrent users, at the login screen, sign in using your full NetID (i.e., #####@student.comnet.edu) and password
