

Central Sterile Processing

Job Description

The field of healthcare may be constantly changing, but the importance of proper sterilization techniques remains a core priority. The prevention of infections is imperative for all who work in the Sterile Processing field. As this awareness becomes more widespread, the need for Sterile Processing Technicians is on the rise. Anyone with the desire to become an important component in providing quality patient care by minimizing infection rates can become a highly needed healthcare professional. Sterile Processing Technicians work in labs and hospitals sterilizing surgical equipment.

Employment Outlook

As of January 1, 2016, the state of Connecticut requires newly hired Sterile Processing Department (SPD) Technicians to be certified within two years of initial employment. Earning potential for a professional working in this field is \$47,160.

Admission Requirements

Students must be 18 years of age and have a high school diploma or GED to enroll in this course. Proof of the following immunizations is required to participate in the clinical experience: MMR, Tuberculosis, Hepatitis B, Tetanus, Varicella, as well as a current Flu Vaccine. Please be informed that clinical sites are currently requiring additional vaccinations such as COVID 19. Passing a background check, prior to the course start date, is required. Background check costs are the responsibility of each student and are non-refundable.

Please be advised that if you have been convicted of a felony, you may not be eligible for clinical experiences, internships, externships or certifications associated with certain Healthcare Career programs. Those with previous convictions may also find it difficult to secure employment within a healthcare setting.

Students participating in this program must:

- Be able to lift and carry 50 pounds or more.
- Be able to bend or stoop, kneel or stand for extended period.
- Be able to pull or push equipment.
- Individuals must have fine motor skills.
- Individuals must be able to communicate effectively and efficiently with peers, managers, and staff in various settings. Communicate includes speaking, writing, reading, implying, and interpretation of monitoring parameters.
- Have transportation to and from clinical sites.

- Pay parking fees (if applicable at clinical sites).
- Pass a CORE background check (non-refundable \$35 fee, not included in tuition fee).

Program Description

Central Sterile Processing Technicians (CSPT) are responsible for packaging surgical instruments in hospitals, medical offices, surgical centers, and clinics. CSPTs are highly needed healthcare professionals who improve the quality of patient care by minimizing infection rates. This program includes 80 hours of classroom time and clinical/skills experience online or on ground covering decontamination and sterilization processing, anatomy and physiology, microbiology infection control, and identification of surgical instruments.

This program includes 60 hours of classroom time covering decontamination and sterilization processing, anatomy and physiology, microbiology infection control, and identification of surgical instruments. Students will also be required to complete 20 hours of clinical/skills experience at clinical facility.

This course will prepare students to sit for the SPD Technician Certification Exam, C.S.P.D.T. For more information about this exam and the organization, please visit the website at www.sterileprocessing.org or call 908-236-0530. The course will include 60 hours of theory and 20 hours of clinical training on-site at a medical facility (clinical sites may charge parking fees). Completion of all 80 hours is required to earn a certificate of completion. Students will be responsible for their own transportation to and from clinical training. Each student is required to complete a clinical application and a background check (non-refundable) prior to the start date of class. **It is recommended that students register two weeks prior to the course start date.**

The Essential Job Skills & Career Development course is REQUIRED to receive a certificate of completion for the Sterile Processing Technician program. This course is offered at various times throughout the year.

This program is CT SNAP, CT WIOA and MASS WIOA approved.

Time Commitment

This 4-month program meets for 80 hours.

CRN: 1084/1067 HMED M7116

Dates: February 16 to June 6, 2023

Day: Tuesday and Thursday

Time: 6:00 p.m. – 8:30 p.m.

Instructor: Elaine Barbera

Instruction type: HYBRID* (LRON and on ground)

Fee: \$2,402 (cost includes course, textbook, and CBSPD Exam)

Total Program Fee: \$2,575 (includes mandatory Essential Job Skills)

HYBRID: This type of course delivery includes on-site and online instruction (combination of live remote and on-ground or ONLINE and on-ground) with a focus on scheduling limited number of class sessions on campus.
